DIARY NOTES

25X1A

DD/S

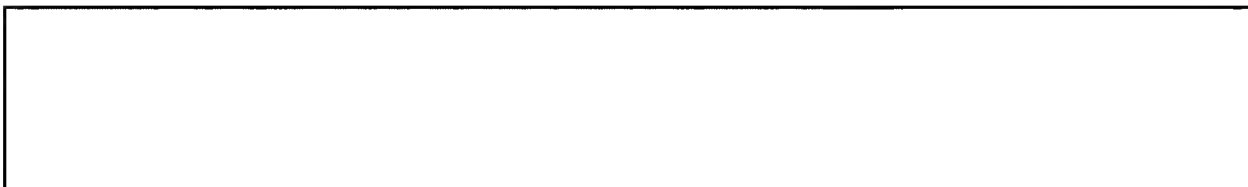

22 August 1957

25X1A9a

25X1A5a1

1. Met with Shef Edwards and  concerning their need for engineers in connection with the audio surveillance program. It was agreed that we should go ahead with a contract with  which would, among other things, obtain the services of two engineers for about a year and that we should organize a committee on which the Office of Communications and the Technical Services Staff, and possibly the Office of Scientific Intelligence, would be represented to pursue this problem internally. However, we have to discuss this matter further with General Cabell.

3. I reviewed the situation on Asiatic flu vaccine with Dr. Tietjen. As of now we still have not received the 10,000 cc's which we have been promised and are not sure when we will receive it.

4. Dr. Tietjen reports that as a matter of policy he is moving in the direction of employing "civilian" doctors only. This would mean discontinuing our past practice of obtaining doctors from the military on detail, as well as from the Public Health Service. I approved of this policy if the supply of doctors remains plentiful enough to meet our needs.

5. Asked Dr. Tietjen to give me a briefing as soon as possible on where we stand on the "Dependents Medical Benefits Program."
